

Mombo Combo — “Daddy Long Legs”

The Mombo Combo Stand achieves an incredible height of 22 feet. Because of this height, it features an extra-wide base and incorporates a collar for attaching stabilizing Guy wires or ropes (Matthews #377578-40). The Mombo Combo legs are made of rectangular steel tubing and are internally reinforced with a Matthews engineered gusset assembly. This is absolutely the strongest stand of its type in the business!

CAUTION: Slight wind can create a tremendous hazard at the heights attainable with this stand. The use of stabilizing cables or guy ropes is recommended.
