

JanJib System

The Egripment JanJib system offers a completely new method of building a Jib Arm. As a result of our unique „modular“ system, which Egripment engineers developed, the operator can now create a variety of 10 different jib arms. The JanJib System is constructed from aluminium extrusions that clip together quickly and easily. In combination with the high quality bearing system that Egripment uses for many years in all its products, the JanJib assures the smooth movement that camera operators have come to expect from Egripment products.

The JanJib includes standard Offset Arms for manual use with a fluid head, or with a remote option that includes a special front section to mount a remote head such as the 301 remote head. The JanJib mounts to all Egripment columns with the standard Euro coupling.

The JanJib remote in combination with the 301 remote Head and controls as a single operator crane is an ideal solution for the use of cranes in smaller studios (Talk shows, Presentation studios, AR/VR etc.) and for use on locations such as Music concerts.

Specifications	JJ 02	JJ 03	JJ 06	JJ 08
Arm reach	1.24 m 4.1 ft	1.65 m 5.5 ft	2.00 m 6.7 ft	2.20 m 7.2 ft
Operational length	2.12 m 6.11ft	2.72 m 8.11 ft	3.96 m 13 ft	3.96 m 13 ft
Maximum height	1.97 m 6.6 ft	2.26 m 7.5 ft	2.94 m 9.8 ft	3.08 m 10.1 ft
Minimum height	1.01 cm 3.4 ft	0.72 m 2.4 ft	0.55 m 1.10 ft	0.41 m 1.4 ft
Maximum load	45 kg 99 lbs	45 kg 99 lbs	45 kg 99 lbs	45 kg 99 lbs

JanJib F75 & 120

Since 1976, when Egripment introduced the first Jib System to the Film and TV Industry, many manufacturers have been trying to bring copies into the market. Nowadays, Egripment's Jib system is still remarkable in the Film and TV Industry.

The JanJib system offers two FIXED jibs. The JanJib "F75" and the JanJib "F120" have a maximum capacity of 45 kg, which is enough for the nowadays generation of the TV and Film Industry. The Jibs have a FIXED length of 75 cm/2,5 ft or 120cm/4 ft. The arm of the JanJib is produced with high quality extruded aerospace duralumin, which makes the system a strong, safe and lightweight piece of equipment.

Any Egripment Platform dolly can be used as a strong base for the JanJib Fixed system.

Specifications	Art.: 141-75	Art.: 141-120
Arm reach	0.75 m 2.46 feet	1.20 m 3.94 feet
Operational length	1.42 m 4.66 feet	2.12 m 6.96 feet
Maximum height	1.43 m 4.69 feet	1.97 m 6.46 feet
Minimum height	0 cm 0 inch	0 cm 0 inch
Maximum load	45 kg 99 lbs	45 kg 99 lbs
Weight	32 kg 71 lbs	34 kg 75 lbs
